01 / GATEGORY

Pumps & sneakers: Large scale, high growth

Boots: Small scale, high growth

Ballet Flats: Medium scale, high concentration

02 / COMPETITION

Pumps & Ballet Flats: Classic style

Sneakers & Boots: Driven by new products

03 / CUSTOMER

Pumps & Ballet Flats: The former targets a younger demographic

Sneakers & Boots: Caters to multiple age groups(with the latter being more pronounced)

04 / FASHION TREND

Minimalism Shifts to Branding: Toe cap + brand elements

PUMPS

- ◇ Large Base, High Growth
- ◇ 31% Share in 2025, Up 24% YoY
- ◇ TOP3: 77%+

Action

Extend from bridal to workwear, focusing on nude patent mid-heels.

SNEAKERS

- ◇ Supply Gap & High Outflow
- ◇ 50% Share in 2025, Up 18% YoY
- ◇ Fragmented Competitive Landscape

Action

Optimize "platform sneakers" based on attributes to intercept outflow.

BOOTS

- ◇ Small Base, High Growth
- ◇ 5% Share in 2025, Up 40% YoY
- ◇ Multi-Polar Market Competition

Action

Supplement with core market trends: Logo boots + Brown suede.

BALLET FLATS

- ◇ High Concentration
- ◇ 14% Share in 2025, Up 18% YoY
- ◇ TOP5: 90%

Action

Conduct rapid market tests to gauge optimal future entry timing.

Opportunity 01: Pumps.

PRODUCT TRENDS

Platform/regular sole

side brand logo

leather/suede material splicing

classic color schemes (white/brown/black)

Best-Seller Upgrade Strategy: Pumps.

High - heel:
Nude color leads the growth, white and metallic colors see high growth.
Pointed toe + stiletto heel + patent leather + shoe head logo, while back straps and slip - on styles

Black/Pink

Black/Pink/Off - white/Brown

White/Pink

Metallic Color

Lack of brand logo - like elements
lack of nude color layout in color configuration

Mid - heel:
Nude color tops the list, black remains stable. Shoe - head logo + patent leather + strapless design
pointed toe / square toe are evenly matched, thin heels / thick square heels are concentrated, slip - on and back - strap styles

White/ Brown

Low - heel:
Dominated by black/nude,metallic colors. Thick heels + patent leather +rhinestone/butterfly - knot decorations on the shoe head/strap, slip - on and buckle - closure

White/Pink/Black/Off - white/Metallic Color

Lack of nude color layout in color configuration
M- heel: lack brand logo - like elements L- heel:bow - decoration designs

Flat - heel:
Dominated by black, with nude, white, metallic colors and brown showing promising trends.
Pointed toe + patent leather + rivets/brand logo + full - shoe/toe decoration, shifting towards extreme minimalist decoration.

Metallic Color

Metallic Color

White/Pink

Lack of black/nude/brown in color configuration
accessories can be considered for addition.

As a signature best - selling style of our brand,
no adjustment suggestions.

Best-Seller Upgrade Strategy: Boots & Sneakers.

Sneakers

Market Trend:
Leather/Suede + White/Brown/Black + Thick Sole/Thin Sole + Brand Logo on the Side of the Shoe + Material Patchwork Effect

The shoe style does not match the fashionable best - selling styles.
It lacks material patchwork & distinctive LOGO design.

Boots

Market Trend:
Dominated by black, with brown showing a good trend Round Toe/Chunky Low Heel/Mid - calf Boots + Cuffed Design + Zipper Closure + Brand Logo Decoration on the Boot Shaft + Leather/Suede Material

Lack of brand logo - related elements; other trends are all met.
